

Our mission is to give you the ability to replay your dreams and understand yourself better.

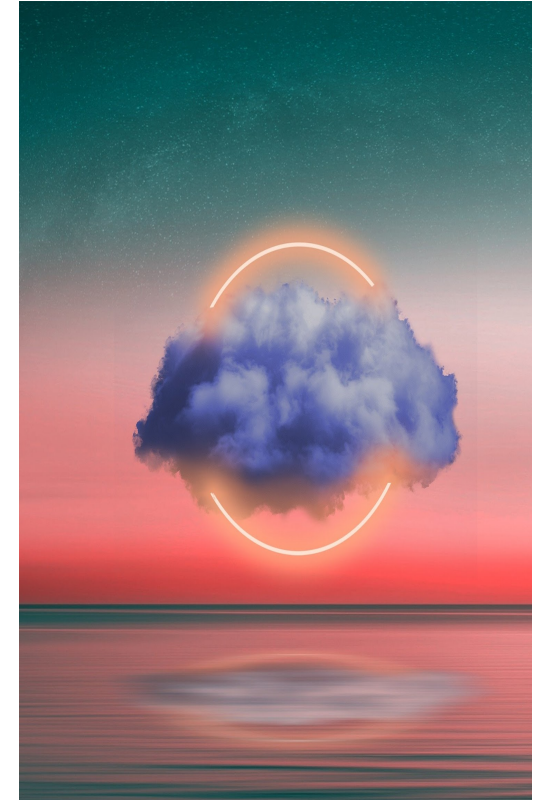

The Dream Catcher examines your brain while you are sleeping with a small electrode stuck behind both ears. The electrode lights connect straight to an app on your smartphone for fast replaying in the morning.

Dream Catcher

Newly discovered technology, you can now watch your dreams after you wake up with the new Dream Catcher device.

Dream Analysis

Recording your dreams is the first step to understanding them. The Dream Catcher app will allow you to insert exactly how you were feeling during certain dreams and will automatically give you scientific data that will help you interpret your dreams.

What do your dreams mean?

Dreams can represent many different ideas and concepts depending on the person. The Dream Catcher will do all the work for you when analyzing your dreams. But only you can reveal the true meaning behind your dreams.

"I have struggled with nightmares my whole life and the Dream Catcher has allowed me to examine and understand these dreams."

-Joan Smith

The Dream Catcher is available to order now from our website. It is a one-time purchase of \$50 and includes a free 3-month subscription to the Dream Catcher app.

Testimony

"I recently lost my mom, after this I began having very vivid dreams of her. The Dream Catcher has been an amazing tool in keeping the memory of my mom alive."

-Jodie Preston, who lost her mom at age 12

Order Now

Check out the newly discovered device at www.dreamcatcher.com now! This device is limited inventory and will sell out fast!
