for

Virginia Preservice Training for Child Care Staff

All child care professionals are responsible to keep the children in their care healthy and safe. Individuals who care for and teach children need to know how to 1) create safe spaces, 2) use safe practices with children, 3) develop and implement daily illness prevention and management strategies, and 4) plan to keep children safe if an emergency occurs. **This ten-hour module provides an overview of health and safety topics and additional required learning for Virginia child care professionals only.**
