

# Remembering the Holocaust

## Honored Guest and Speaker, Dr. Roger Loria, Holocaust Survivor

Loria came to the U.S. in 1964 and earned his degree in medical sciences in 1972 from Boston University. In 1973, he joined the Medical College of Virginia (MCV) at Virginia Commonwealth University and spent his career instructing students and researching solutions for immunological problems in response to his early experience as a child during the Holocaust.

His laboratory at MCV discovered several hormones which function in upregulation of host resistance against lethal viral and bacterial infections, as well as protection against lethal radiation injury and cancer.

## Dean Whitbeck, Photographer

Mr. Dean Whitbeck will give a presentation and discussion on his exhibition titled, "The Holocaust Survivors Photo Project". This photographic display includes large-scale portraits, and includes most of the nearly 30 Richmond-area residents who survived the atrocities of the period.
