

April 2, 2018—FOR IMMEDIATE RELEASE

## **On-the-Go Cup o’ Joe Released**

FARMVILLE, VA- The newest and trendiest way to save time while brewing a customizable coffee was released yesterday by coffee maker company Carpuccino. This new product is designed to suit the needs of the college students, working parents, and hardworking citizens of Farmville, Virginia.

This new product on the market is designed for Americans with a busy lifestyle. Some often find themselves running behind in the mornings while waiting on their coffee to brew. The Carpuccino is easily installed and allows one to brew their morning coffee while getting to their job all in one.

“...so convenient for my busy lifestyle,” exclaims John Smith, assistant director of Carpuccino. Out of the free trial with 100 contestants, 99% of the contestants claim they would buy the product for themselves, while recommending this product to their friends as well. “The Carpuccino allows me to have my perfect cup of coffee while juggling to get the kids to school on time,” stated one of the trial participants, Jane Doe.

Carpuccino also comes with many safety features. While it brews coffee when the car is being driven, it prevents the driver from setting the brewing features unless the machine senses the car comes to a complete stop. This allows safe, undistracted driving for customers. In addition, Carpuccino automatically detects the temperature of the coffee. This will make it a warm temperature as soon as it brews to prevent any burning coffee.

This product comes with many types of coffee options, including macchiato, latte, cappuccino, americano, and many more varieties of coffee. Other features include the customizing of the amount of cream, sugar, and foam in every cup. Each installment comes with a 30 day satisfaction guarantee.

Carpuccino has a promotional sale to encourage the purchase of their product. The starter pack is a payment of \$29.99. This includes the complete Carpuccino system with a sample of Starbucks macchiato, latte, cappuccino, and americano to the first 50 customers.
