

Radford Carilion Program

(Address)

September 9, 2022

To (Name of person):

In December 2022, I am graduating from with a Bachelor's degree of Science in Biology and a Minor in Political Science. I am also working to earn a Certification in Phlebotomy in December 2022 from Southside Virginia Community College. I am interested in the Clinical Laboratory Certification program at Radford Carilion.

I have experience in reading and writing scientific articles. I have a passion for learning new things. I really have enjoyed learning things in my Phlebotomy and Immunology class. I work hard and never give up. A testament to my dedication and hard work is the 2nd degree black belt I earned in Taekwondo. I am flexible person when it comes to challenges, which I have honed while working in customer service as a Desk Aid at Longwood and as an Office Assistant at Majest Martial Arts.

I have a passion for biology and this has been further developed with my involvement in the STAT on program and the LIFE STEM program. I spent four years in a high school program, STAT, for those interested in biology/medical professions. The STAT program allowed me to jump start my learning process into the medical professions/biology world. I also am in the LIFE STEM at Longwood, which is a program dedicated to STEM related fields.

Thank you for taking the time to review my application material. I look forward to talking with you. Please contact me at (540) 621-9969 or by email, helmsamystat@gmail.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Amy Helms", with a long horizontal flourish extending to the right.
