For Farmville Insurance Corp.

Dear to whom this may concern,

I am writing to bring the many large pot holes that are through town.

I am a resident in the area that has lived here for 10 years. I have yet to have a reason to complain so this is my first favor to ask. This is a beautiful town that has a wonderful community. I am writing this letter today because I have come across lots of large pot holes on my daily commute to work. I have noticed recently on my way to work that there have been some pot holes along the main roads.

This is a concern for the safety of our town and community. These large pot holes could cause a major accident and are a hazard to drivers who many have impaired vision problems. These large potholes also cause damage to the driver's car resulting in the driver having to cover the cost to an expense. I also can not help but notice the unappealing look it adds to our town making us look uninviting.

The town would be grateful if the town council would take the necessary steps in order to fix the many potholes in town. The town would appreciate it if we could have these potholes filled so that we are safe and our cars are not damaged as we travel from place to place.

Thanks,
Shannon Henshaw
