

Questions: 13.5

- 1) What were the major themes of Chief Joseph's appeal? What does he want from the U.S. government?

He wanted the government to act and stop just talking about a given subject. There have been so many promises made, but none of them are upheld.

- 2) Why do you think that the federal government acceded to Chief Joseph's wishes but disregarded those of so many other tribes?

I think that the Chief has a higher authority, and the government took the time to listen to him, and they found that he made some good points. He also stated the fact that he has lost so many people from his tribe, including his family.

Questions: 13.6

- 1) What were the main objectives of these rules? What traits do children need to adopt to succeed at the school?

These rules are designed for the students to have a schedule, and to have some type of disciplinary actions. They are made so that the Indians can be custom to American society. They need to adopt the quality to listen, speak English, and follow rules.

- 2) How do you think these rules affected Indian children?

These rules affected the Indians by making them adjust to the American ways.

- 3) How did the rules treat boys and girls differently? Why do you think regulators made these distinctions?

It separated the boys and girls when they went out for recreational activities. I think that they made these decisions so that they didn't have too much interaction with each other, so they were less distracted.

- 4) Are there any similarities between the Indian school and today's schools?

There are similarities between how the way the kids dressed, and how the kids were taught in the industrial work.

Questions: 13.7

- 1) How does Muir describe America's forest? Why does he believe that the forests are imperiled?

He feels like the forests are the center of life. He believes they are imperiled because they are strong and are hard to get rid of.

2) What does Muir propose to ensure that the forests are protected? Is his solution feasible?

Laws have been tried to prevent the destruction of trees, they do not seem to work.
