# Pillow Talk Corporation

At Pillow Talk Corporation, we sell the Day Dreamer. The Day Dreamer is a pillow that allows people to record their dreams and to be able to watch them the next day. Most people don't remember their dreams after waking up, so this is a great opportunity to relive your dreams and watch them day by day. Great Dreams Do Come True when you buy Day Dreamer.

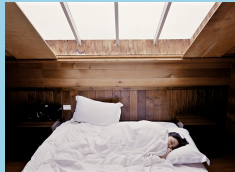

## Day Dreamer

Day Dreamer is the best pillow around! Besides it being able to record people's dreams, it is a very comfy pillow. At Pillow Talk, we want our customers to have the best night sleep and to be able to dream with an open mind.

### How it Works

After buying Day Dreamer, it works by plugging your phone into the pillow and then you put your phone back in the pillow. While laying on the pillow with the head band on, it will record your dreams. This product connects with your phone via Bluetooth. This allows people to watch their dreams the next day on your phone. It can hold up to 1000 dreams at a time.

**How much and where to find Day Dreamer:** Day Dreamer costs \$29.95 and can be found in stores such as Bed Bath & Beyond, Target, and Walmart. Day Dreamer can also be purchased online on our website.

### Your Experience

Experience the spontaneous dream making pillow with Day Dreamer and be able to watch your dreams the next morning. Day Dreamer is a pillow that is like no other that makes sleeping more exciting and rewarding. Pillow Talk™ clients repeatedly tell us that Day Dreamer has changed their lives and they are happy that they could see their dreams come true.
