

# Neuroscience Studies

IF MAJORING IN...

## Biology (BS)

If you plan to major in Biology, the following is a recommendation for courses required by the major that will also double count towards a minor in Neuroscience Studies. Refer to the suggested list below:

1. For the “Cell and Molecular Area” requirement, take:
  - i. BIOL 360 – Developmental Biology (4)
  
2. For the “Organismal Area” requirement, take:
  - i. BIOL 301 – Comprehensive Human Anatomy and Physiology (4)
  
3. For the additional 16 electives credit requirement, take:
  - i. BIOL 306 – Vertebrate Physiology (4)
  - ii. BIOL 326 – Cell Biology (4)
  - iii. BIOL 412 – Biochemistry (4)
  - iv. BIOL 475 – Animal Behavior (4)
  
4. 9 of these credits may be used to complete the elective requirements for your Neuroscience Studies minor. Be sure to consider prerequisite courses, as well!
  
5. As a reminder, to fulfill the requirements for the minor, open electives must include:
  - i. PSYC 151 – Biopsychology or NEUR 105 - Introduction to Neuroscience
  - ii. NEUR 321 – Behavioral Neuroscience
  - iii. NEUR 405 – Interdisciplinary Neuroscience
