

Customer Testimonials

"As someone who does not have much extra time in their schedule, Blink Co. really made traveling times nonexistent! Now I can go from country to country without a problem."

-Marcus Wile, Business Consultant

"Blink Co. has made it possible for me to keep my long distance relationship alive. If it wasn't for this company, we would never be able to see each other! I am so thankful that this technology exists."

Samantha Curr, Biology Student

The Founders

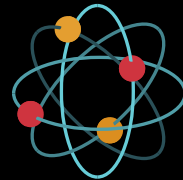

For their group doctoral thesis, co-founders Madison Rowzee, Thomas Orr, and Sarah Miller tested formulas of teleportation and were successful. Their dedication to improving transportation has created this successful company and new method, Blink Co.

Try Blink Co. today and experience the ease of teleportation from your own home.

Sign up and create an account before **April 25th** to receive 100 free traveling miles.

Visit our website or download the app to start your new journey into teleportation!

Travel in the blink of an eye

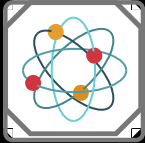

BLINK CO.
teleportation technology

Discover the New World of Transportation

How It Works

Using a specific system of matter transfer, Blink Co. has successfully configured the right formula in order to teleport in an instant.

What It Does

With the highly evolved BlinkPlates, customers are able to travel in the blink of an eye to any desired location. Using watch technology that is synced with one's specific BlinkPlate, seeing mileage and selecting locations is incredibly easy.

The TeleWatch keeps track of used and available data as well as favorite locations and destinations. It is voice activated for easy selection and exploration of options.

Why Blink CO?

Members of the Blink Co family will enjoy the luxury of instant transportation and avoid all traveling hassles.

No more paying for flights, finding ways to stay preoccupied for hours, or the feeling of jet lag.

Join Today

For access to Blink Co.'s new technology, one must create an account and select a certain mileage program.

Blink Co prides itself on being affordable and available to the everyday customer. The smallest plan starts at \$50 and comes with 100 miles each month.

Customer Satisfaction

Future customers might find teleportation to be daunting, but rest assured that the process is painless and unnoticeable.

One might feel a slight tingly sensation when teleporting, but it is over within a second and there are no future side effects to the body.

The Guarantee

Blink Co. is here to give frequent flyers and constant drivers a quick and efficient way to travel.

Say goodbye to being stuck in the car! There is no longer a need when you can go wherever, whenever.
