

CUSTOMER TESTIMONIALS

"Baby Specs opened up a whole new way for me to understand my infant. Before I found this product I cried right along with my daughter. Now we are both much happier!"

Liam Stronghold, New Dad

"This is great because now I don't have to try a bunch of things before finding out what my baby needs. Now I can save money on food and diapers because I won't be using them when I don't need them!"

Julia Redding, New Mom

"My inspiration for this product came from my own hardship with my infant. I always found myself wishing there was some easier form of communication instead of playing a guessing game."

Alyce Smithfield, Founder of NewVision

**A LOOK INTO THE EYES OF
THE NEXT GENERATION**

ABOUT BABY SPECS:

NewVision was founded in response to the growing number of new mothers who had significant difficulty understanding their newborn.

THE DEVICE:

Baby Specs appear to look like typical glasses for a discrete look. They are designed for comfort and durability to allow easy use anywhere.

HOW IT WORKS:

Baby Specs works to maintain the happiness of your child by using a small camera-like lens. The lens evaluates the level of distress through the eyes and facial features.

OUR PROMISE:

At NewVision, we prioritize your safety and overall happiness. Our product is specifically made with the safety of caregiver and child in mind. You can remain at ease when tending to your child's needs knowing that we are thinking of your best interest.

**UNDERSTANDING THE
NEXT GENERATION**

YOUR EXPERIENCE:

Experience the ease of never having to scramble to meet the needs of your child again. Imagine knowing immediately what they need before they have a meltdown. Baby Specs allow you to skip the hassle of not understanding the needs of your child due to communication barrier. Learn how you can schedule your free trial today!
