

“I’m always on the go, and with the Waste Sorter I no longer have to worry about my children using the wrong bins.”

–Jane Walter, School Teacher

“The Waste Sorter takes one more thing off my plate. It feels wonderful knowing that I am doing the right thing for the environment.”

–Michael Sprout, Business Man

Founders Kristin Wilcox, Hannah Auerbach, and Jeremy Derflinger dedicated five years designing accessible products that benefit the environment.

Purchase a Waste Sorter before December 20, 2018, to get a 10% holiday discount. You can purchase by visiting our website at www.ecotech.com.

EcoTech Waste Sorter

Going greener has never been easier!

WHAT IS ECOTECH'S WASTE SORTER?

The EcoTech Waste Sorter is a new option for home waste management. This innovative device automatically sorts your waste materials into compost, trash, and recyclables so you don't have to!

HOW DOES IT WORK?

Lasers scan the items dropped into the bin and then identify the material components of the waste. Levers below then separate and guide the materials into the correct detachable container.

WHAT'S GREAT ABOUT THE WASTE SORTER?

It's...

- ◆ Simple
- ◆ Sanitary
- ◆ Convenient
- ◆ Sleek and compact

After using EcoTech's Waste Sorter, you will feel great knowing you are making a positive impact on the environment.

— ◆ —

EcoTech partners with local waste management companies to transport the Waste Sorter's contents to the proper facilities weekly, just like typical waste pick-up.

— ◆ —

EcoTech's Waste Sorter is available for only \$200.
