

Testimonials:

Jared Smith: Owner of Lawn Mower Inc.

“As the technology gets better and better, I think you're going to find robotic mowers will be more of the norm,” Smith says. “There's a lot of room for this product in landscaping and in business models moving forward.”

Customer Reviews:

“I've had my mower for 2 years now at home and I absolutely love it. I'm a golf course superintendent and I have also started to use my mower on the course. It's unbelievable to see how it established fast and more healthy grass when I use the Solo Mower.”

“I am nearly 1 year in with my Solo Mower on my .5-acre yard. This mower easily handles my entire yard cutting 10-11 hours at night. No maintenance required, has easily saved me 2 hours a week and convenient. 10/10 recommend this product!”

The most efficient way to cut grass on your time!

SOLO MOWER

Lawn Mower Inc.
Farmville, Virginia

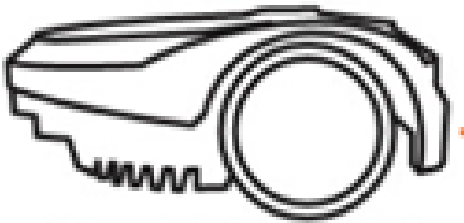

Kierra Burrell, Jacob St. John,
and Kelly Williford

Save Time and Energy

Solo Mower knows when to cut grass and leave the fertilize soil alone. It has the power and technology to keep your yard looking neat.

Save Time and Money

Your time is precious. Use Solo Mower so you can get back time with your loved ones. You'll save money without the hassle of paying for gas. Solo Mower has an affordable price of only \$1,200 and payment plans are available upon request.

Green Means Go

Solo Mower is better for the environment. It eliminates the need for gas with a rechargeable battery.

Battery

The mower is powered by a 30-Volt lithium-ion 5Ah battery. The mower will automatically return to the charging station and dock until full charge is reached and pick up where it left off when the battery gets low. The docking station acts as a home base that the Solo Mower charges at.

Safety

Solo Mower's big wheels makes it easier to mow up or down hills safely. The design of the Solo Mower makes it adjustable to stop and turn.
