

Our mission

As much as we love this capitalistic society of supply and demand we love the opportunity to answer the call of environmental justice more. We see a direct correlation between youth education and the future of the planet. We are happy to provide youth with the chance to put the future of the planet in their hands! Our slogan is simple, “focused on learning our world”. When we commit to learning more about the world around us it makes developing products like this worthwhile.

Testimonials

“I love the chance to focus that the tangle provides, I have gotten so much work done and my phone has not died because of low battery ever since I got it” - Jacob, Stock Investor

“I bought one for me and my kids and they love it! While they are doing homework, they use the tangle feature. Then when they are playing on their tablets, they do not have to worry about it dying” - Michelle Obama, Public Influencer

Our Founders

Jamichel Savoy Peterson and Lorida Regen King have been committed to the bettering of the planet. Growing up both were actively involved in environmental stewardship. Dr. Jamichel Peterson went on to teach for 15 years in the public school system prior to this. Dr. Lorida King was a public relations chair for the Environmental Protection Agency.

Fidget F.L.O.W
focused learning our world

The Fidget F.L.O.W: Tangle

Introducing the 2021 Fidget Flow: Tangle! This revolutionary product brings everything you love about the tangle fidget toy and uses the energy you create to charge your small electrical devices such as phones, tablets, and watches!

Using the science of kinetic energy the device safely provides hours of fun to those that may need something to manipulate while they are focused on an important project or task! While moving the Fidget F.L.O.W: Tangle around that movement is stored into a battery pack. That battery energy is stored until you are ready to charge your device.

This Fidget F.L.O.W: Tangle uses the USB port to charge the small device of your choosing!

The Fidget F.L.O.W: Tangle

Available for children, adults, and anyone who may benefit from the perk of creating their own energy and being their own power source! You are creating your own renewable energy; you are helping the planet! Our battery packs are backed by our studies to last at least 45 years!

Schools/ Office Purchases

To purchase this product for larger institutions there will be a discount based on the quantity at which you wish to purchase. This is great for giveaways and responsible citizens!

“I love the ability to help the planet and encourage my fans to do the same” - Kanye West

Join the 1 Planet Savers Club!

We are happy to have helped this wonderful rock support our growing population. Our mission is to continue to be the leader in providing products that have a focus on learning and a focus on our world. With your purchase, you are eligible to join our 1 Planet Savers Club where you can get access to our exclusive deals and be notified of environmental efforts happening in your community!

Future and Present Generations

Calling all leaders, administrators, lovers of this great planet that we all share. There is a great chance to help students focus in the classroom, workers to be more productive in their workplace, and decrease the rate at which fossil fuels burn the atmosphere on the planet.
