Dear Future Employer,

My name is Morgan Spiers and I am writing to express my interest in a position to work with your team. With a personal mission to contribute to the well-being of individuals and communities through compassionate and empowering interventions, and a professional commitment to being a dedicated and ethically-driven practitioner in the field of behavioral health and substance addiction services, I am excited about the opportunity to align my values and expertise with your team.

Guided by the principles of empathy, cultural humility, and a deep understanding of human behavior, I am passionate about fostering positive change in the lives of those facing behavioral health and substance addiction challenges. My internship experience accumulating 500 hours of client engagement and intervention at Poplar Springs Hospital has provided me with valuable hands-on experience working with patients with diverse mental health needs, where I honed my skills in crisis intervention, patient assessment, treatment planning, and therapeutic support. Additionally, I accumulated 180 hours of experience working with Petersburg Department of Social Services where I coordinated and shadowed social workers and other helping professionals in the implementation of social assistance programs.

I aspire to create a safe and inclusive space where individuals can explore their strengths, navigate their struggles, and embark on a journey towards holistic wellness. By integrating evidence-based practices with a person-centered approach, I strive to develop and implement comprehensive, culturally competent interventions that empower individuals to overcome challenges and achieve lasting recovery.

In addition to my clinical skills, I possess strong communication, interpersonal, and organizational skills, which enable me to effectively engage with clients, families, and professionals across various disciplines. I am dedicated to ongoing professional development, collaboration with interdisciplinary teams, advocacy for policy change, and maintaining a commitment to social justice in the behavioral health landscape. I am confident that my passion for social work, along with my skills, knowledge, and experience, make me a strong candidate for the position.

Sincerely,

Morgan Spiers
