

Based on a true story - Riley Wieland

One morning a 10 year old girl named Riley woke up to head to her neighbors house to dog-sit.

She started the 2 minute walk throughout her neighborhood to get to the house she needed to care for her neighbors dog.

All of sudden, on her walk, she notices an elderly woman who had fallen and was injured.

She told the woman she would run home to get her mother, who was a nurse to help and call an ambulance.

Her mother immediately rushed to the woman and knew she needed medical help.

Her mother instantly called an ambulance.

The ambulance came shortly after, and then loaded up the elderly woman to take her to the hospital.
